Student _____

Date of Birth _____

Screening procedures used in our Wellness Fair are not the same as a physical exam by your child's doctor. Screenings are meant to designate areas that may need further evaluation if results vary from the norm. Professionals from Quest Diagnostics Laboratory will be collecting your child's sample.

Your child's blood will not be tested for illegal drugs, nicotine, or pregnancy. All lab results will be kept confidential.

I understand, as a parent or guardian, it will be my responsibility to follow up with my child's doctor to review any results that concern me. I release Scott Community High School and Quest Diagnostics from any or all liability arising from any incident, act of omission, or commission which arises during blood drawing.
